

HPA SERIES POWER AMPLIFIER

MODEL:
HPA3000

The HPA series power amplifier is a budget priced unit that will deliver a generous 300 watts of stereo power into 4 ohms impedance. Normal safety protection against: RF mismatch, short and open circuit and thermal overload by automatic trip and reset is standard within the amplifiers circuitry.

This unit may be used to power up any of the HH range of MISCARA stage mixers. The HPA3000 housing is a standard 2U, 19" rack format.

CONNECTION FACILITIES

1/4" jack input and link connectors are available on each channel

TECHNICAL SPECIFICATIONS

2 X 150 watts stereo power output at 4 ohm each channel.
Fully protected against: RF mismatch, short and open circuit and Thermal overload with automatic trip and reset.

Size: W540 x D340 x H275mm (2u) Weight: 10kg
