

PRO-200

Clear Tonal Sound with Punch

The PRO-200 is a powerful loudspeaker capable of clear reproduction at shatteringly high levels from a reasonably sized unit.

The enclosure houses two H/H 1200E 12" drivers connected in parallel, which has the effect of increasing the efficiency and presents the amplifier with good damping characteristics that ensure a fast reaction to transients.

The H/H HF 200 Bullet Radiator perfectly matches the output capabilities of the combined bass units even under a full rated systems power of 200 Watts. Sibilants and overtones that are essential for sound penetration are cleanly reproduced.

The ideal portable loudspeaker for vocals and dynamic music.

Rated power:	200 Watts R.M.S.
Nominal impedance:	8 ohms
Dimensions:	33½" × 18" × 13" (849mm × 455mm × 330mm)
Weight:	77 lbs. (35kg)

Supplied complete with connecting lead, instructions and transport cover.
